hvusvztc770@gmail.com
linkedin.com/in/yzvogel

Junior Full Stack Developer who works regularly with AI (Claude Code), with hands-on experience in React, TypeScript, Node.js, and modern frontend + backend tools. Strong problem-solving skills, fast learner, and experienced working in a changing environment - while solving unorthodox problems.

EXPERIENCE

Israeli Air Force, Tsrifin – Full stack developer

2024-2025

- Developed and maintained internal web applications using React and TypeScript
- Built backend functionality with Node.js
- Worked with modern frontend tools including Tailwind, React Query and Zod
- Collaborated with team members in an agile, mission-critical environment

EDUCATION

Ort Singalovski, Tel Aviv – High School Diploma (Matriculation Certificate)

2023

Successfully completed high school matriculation exams with core subjects including English, Hebrew, and Mathematics.

Ort Singalovski, Tel Aviv – Diploma in Software Development (Software Technician)

2024

Completed a hands-on software development diploma program with emphasis on JavaScript, web technologies, and application development. Built small-scale projects and gained experience working with modern development tools and structured coding practices.

Handesaim, Tel Aviv – Practical software engineering

2025-2026

Continued hands-on software engineering training with a deeper focus on algorithms and data structures, cloud fundamentals with AWS, and additional full-stack development practice. Completed with an average of 95+.

GITHUB PROJECTS

MacOS_Portfolio, Interactive Desktop-Style Portfolio Website

mac-os-portfolio-cyan.vercel.app

Built an interactive macOS-inspired portfolio featuring draggable windows, smooth animations, and a responsive desktop-like UI. Based on a JavaScript Mastery tutorial and refactored by migrating the project from JavaScript to TypeScript while improving structure and reusability. Developed using React, Tailwind CSS, GSAP, and Zustand with a focus on modern UI/UX.

Horse Website, Hebrew Equine Info & Training Platform

horse-3llf.onrender.com

Building a three-page Hebrew-language website for horse enthusiasts, covering general horse care and information, an equine therapy overview, and an interactive riding-skills reference tool that lets instructors browse skill categories, difficulty levels, and prerequisite chains.

Sudoku Solver & Learning Platform

sudoku-site-production.up.railway.app

Built a full-stack Sudoku solving and learning platform. Implemented a from-scratch solving engine covering 29+ techniques (from naked singles to XY-chains), a grid photo-upload OCR flow, and a structured tactic-by-tactic curriculum with progress tracking. Built with React (TanStack Start), Node.js/Express, and PostgreSQL, containerized with Docker and deployed on Railway.

SKILLS

React + Typescript
Node js
SQL Server
Prisma
Tailwind
Git
GitHub + Azure Studios

ADDITIONAL EXPERIENCE / FAMILIARITY

Next.js
Docker
Nest.js
PostgreSQL
Linux (basic)
Zod
React Query
shadcn/ui
MUI
Drizzle

AI TOOLS

Claude Code (desktop app)
Claude Code (CLI)
Claude (chat)
AI-assisted development
